Summary

I am a Certified Salesforce developer, with a passion for all things Salesforce. With some experience in development and management of complex business processes and systems. I am specialized in apex programming, new process design/implementation and integration procedures. I am also proficient in the use of tools and methods such as apex triggers, process builder, lightning web components, data loader, API integration, vlocity document templates, dataraptors and lightning app builder.

Experience

Associate Salesforce Developer

Bajaj Finserv Health

Jul 2021 - Present (7 months +)

- Implementation of Platform events to overcome async operation limits
- Designed and implemented Event based data sync for Salesforce-Mobile app integration using Cometd with Kafka
